

SECTION 1: EVALUATION METADATA & TEAM CREDENTIALS

Judge Name:		Designation / Dept:	
Team ID / Code:	TG-2026-	Slot Timing:	Slot #: (10 Mins Allotted)
Project Title:			
Team Members: (Max 3 Members)	1. (Lead) Branch: Year: 1st 2nd 3rd 2. Branch: Year: 1st 2nd 3rd 3. Branch: Year: 1st 2nd 3rd		
Team Format:	☐ Solo (1 Member) ☐ Duo (2 Members) ☐ Trio (3 Members) • Fee: ₹70 (Solo) ₹100 (Team)		

SECTION 2: PROBLEM TRACK & DEMONSTRATION VERIFICATION CHECKLIST

Official Challenge Domain (Check ONE Track)	Working Demonstration Mode (Check All That Apply)
☐ PS-1: The ₹3,000 Smart Field (Precision Irrigation & Pest Alert) ☐ PS-2: The 6-Hour Shield (Allied Dairy & Fisheries / Cooling) ☐ PS-3: Shree Anna: Grain to Gain (Traditional Millets Processing) ☐ PS-4: Zero-Chemical, Zero-Loss (Regenerative Farming & Bio-Control) ☐ PS-5: Mandi Bypass: Fair Bid (Digital Marketplaces & Auctions) ☐ PS-6: Open Innovation in Agriculture (Grassroots Innovation Track)	☐ Physical Hardware Prototype (IoT Node / Sensor Circuit / Microcontroller) ☐ Mechanical / Frugal Mechanism (Tool / Dehulling Rig / Passive Aerator) ☐ Functional Simulation (Verified Wokwi / Tinkercad / MATLAB Model) ☐ Live Web Application (Farmer Marketplace / Dashboard / Auction Portal) ☐ Live Mobile Application (Android / iOS / PWA / SMS Gateway) ☐ [NOTE: Pure abstract slides without demonstration cannot score > 50%]

SECTION 3: MANDATORY DELIVERABLES GATE CHECKLIST (ELIGIBILITY AUDIT)

Status	Mandatory Deliverable Parameter	Judge Verification
☐ YES ☐ NO	1. Authentic Problem Definition: Clear target farmer, specific crop, pain point, and root cause.	Verified ☐
☐ YES ☐ NO	2. Working Functional Demonstration: Live hardware, mechanism, verified simulation, or live app.	Verified ☐
☐ YES ☐ NO	3. Farmer Economics & BOM: Itemized component cost, operating budget, and payback period.	Verified ☐
☐ YES ☐ NO	4. Structured Pitch Deck: 6 to 8 slides (Problem, Root Cause, Solution, Demo, BOM, Feasibility).	Verified ☐
☐ YES ☐ NO	5. Budget Compliance: BOM below ₹3,000 for standard tracks (PS-1 to PS-5) or justified for PS-6.	Verified ☐

Session Format: 6 Mins Pitch & Demo | 3 Mins Jury Q&A | 1 Min Transition • [Turn Over For Scoring Rubric →]

SECTION 4: COMPREHENSIVE JURY SCORING RUBRIC & EVALUATION CHECKLIST (100 MARKS)

Evaluation Instructions: Each pillar is scored out of 25 Marks. Tick observed attributes, select performance band, and record awarded marks. Qualifying Benchmark: >= 50 / 100 Marks.

Evaluation Pillar (Max Marks)	Detailed Sub-Criteria & Checklists	Performance Bands	Awarded Marks
CRITERION 1: REAL-WORLD RELEVANCE & PROBLEM GROUNDING (Max: 25 Marks)	Check all observed attributes: ☐ Genuine, acute problem grounded in Indian agriculture (specific crop/region) ☐ Clear target farmer profile (small/marginal) & addresses root cause ☐ Accounts for harsh field realities (dust, voltage swings, water hardness) ☐ High community need, local adoption feasibility & genuine farmer value	☐ 21–25: Outstanding ☐ 16–20: Good / Solid ☐ 11–15: Average / Fair ☐ 00–10: Weak / Abstract	/ 25
CRITERION 2: TECHNICAL INNOVATION & ENGINEERING FEASIBILITY (Max: 25 Marks)	Check all observed attributes: ☐ Sound engineering concept, working scientific principle & clear system design ☐ Working Demonstration verified (hardware prototype / mechanism / simulation / app) ☐ Frugal, durable components operable under rural power/network constraints ☐ Maintainable by local technicians & distinct novelty over existing solutions	☐ 21–25: Outstanding ☐ 16–20: Good / Solid ☐ 11–15: Average / Fair ☐ 00–10: Non-Functional	/ 25
CRITERION 3: FARMER ECONOMICS & IMPACT / GVA (Max: 25 Marks)	Check all observed attributes: ☐ Transparent, realistic BOM (<= ₹3,000 for standard tracks / justified in PS-6) ☐ Viable operational cost (low power consumption, affordable consumables) ☐ Quantifiable farmer benefit (yield increase, spoilage reduction, labor save) ☐ Fast payback period (< 1-2 crop cycles), compelling ROI & village scalability	☐ 21–25: Outstanding ☐ 16–20: Good / Solid ☐ 11–15: Average / Fair ☐ 00–10: Unviable / Flawed	/ 25
CRITERION 4: PITCH, LIVE DEMO & JURY DEFENSE (Max: 25 Marks)	Check all observed attributes: ☐ Strict adherence to 6-min pitch window & 6–8 slide structured deck ☐ Flawless live demonstration smoothly integrated within presentation ☐ Convincing defense during 3-min Q&A & awareness of failure modes ☐ Articulation, domain confidence, equal team synergy & farmer empathy	☐ 21–25: Outstanding ☐ 16–20: Good / Solid ☐ 11–15: Average / Fair ☐ 00–10: Disorganized	/ 25

SECTION 5: PITCH TIMING & JURY DEFENSE OBSERVATION CHECKLIST

Pitch Session Timing (10 Mins Total)	Jury Defense & Technical Cross-Examination
☐ Pitch strictly completed within 6 minutes (Eligible for full marks) ☐ Exceeded time limit (> 6 mins; Penalty: -2 to -5 Marks) ☐ Live demonstration executed smoothly within the 6-min window ☐ Active, equal participation observed across all team members	☐ Effective defense against failure modes (clogging, mud, vibration) ☐ Practical mitigation for power cuts, low bandwidth & sensor drift ☐ BOM prices validated against open retail & wholesale market ☐ High farmer usability (effortless operation & field repairs)

SECTION 6: FINAL SCORE, INCUBATION RECOMMENDATIONS & SIGNATURES

TOTAL CONSOLIDATED SCORE (SUM OF CRITERIA 1 TO 4): Qualifying Benchmark: >= 50 / 100 Marks • Tie-Breaker Priority: [1] Relevance Score → [2] Tech Innovation → [3] Farmer Economics → [4] Jury Consensus	TOTAL MARKS: [/ 100] ☐ QUALIFIED (>= 50) ☐ NOT QUALIFIED
Post-Event Opportunity / Future Incubation Potential (Check all that apply): ☐ HIGH PRIORITY: Outstanding innovation; recommended for IIoT Lab Prototyping Grant & Mentorship ☐ FIELD TRIAL CANDIDATE: Ready for immediate agricultural validation with local farmers ☐ PATENT / IP CANDIDATE: High novelty; recommended for prior-art search & patent filing ☐ PROMISING BUT NEEDS REWORK: Strong problem grounding; requires engineering redesign or BOM reduction ☐ THEORETICAL: Lacks viable functional hardware/software implementation	
Constructive Feedback & Key Advice for Students: Key Strengths & Merits: _____ Critical Flaws & Recommended Next Steps: _____

APPENDIX: JURY CONSOLIDATED MULTI-TEAM SCORING MATRIX (TRIGUNA)

Master Deliberation Sheet for Judge's Quick Benchmarking across multiple team pitches. Record individual criteria scores (each out of 25) and calculate total (out of 100) to determine podium winners and rankings.

#	Team ID	Project Title / Innovation	Track	C1 (25) Relevance	C2 (25) Tech/Demo	C3 (25) Economics	C4 (25) Pitch/Q&A	Total (100)
1	TG-01		PS-__					
2	TG-02		PS-__					
3	TG-03		PS-__					
4	TG-04		PS-__					
5	TG-05		PS-__					
6	TG-06		PS-__					
7	TG-07		PS-__					
8	TG-08		PS-__					
9	TG-09		PS-__					
10	TG-10		PS-__					
11	TG-11		PS-__					
12	TG-12		PS-__					

JURY TIE-BREAKING PROTOCOL & FINAL CERTIFICATION:

1. In case of identical aggregate scores, tie priority order is strictly: [1] Higher Criterion 1 (Relevance) → [2] Higher Criterion 2 (Tech/Demo) → [3] Higher Criterion 3 (Farmer Economics) → [4] Unanimous Jury Consensus.

2. Certification: I hereby certify that the above evaluations were conducted impartially in accordance with the official XTASY 4.0 TRIGUNA event guidelines.
